

Nick Lachey, This I Swear

You're there by my side
In every way
I know that you would not forsake me
I give you my life
Would not think twice
Your love is all I need believe me

I may not say it quite as much as I should
When I say I love you darling that means for good
So open up your heart and let me in

And I will love you 'til forever
Until death do us part we'll be together
So take my hand and hold on tight
And we'll get there
This I swear

I'm wondering how I ever got by
Without you in my life to guide me
Where ever I go the one thing that's true
Is everything I do I do for you

I may not say it half as much as I should
When I say I love you darling that means for good
So open up your heart and let me in
And I will love you 'til forever
Until death do us part we'll be together
So take my hand and hold on tight
And we'll get there
This I swear

So whenever you get weary
Just reach out for me
I'll never let you down my love

And I will love you 'til forever
Until death do us part we'll be together
So take my hand and hold on tight
And we'll get there

And I will love you 'til forever
Until death do us part we'll be together
So take my hand and hold on tight
And we'll get there
Ohh we'll get there
This I swear
