

# Nickelback, Mistake

As I sift and drift through bullshit,  
That plagues from day to day,  
Would you ever really notice I've gone away?

## CHORUS

I'm over the wall,  
Over the hill,  
Over at your place,  
I'm over the safety's,  
Over the phone calls,  
Over the rage,  
What a mistake.

When you've lost the stones to throw,  
The ones I found to make a fire,  
And all the lonely souls that say so get fired.

## CHORUS

What a mistake,  
What a mistake,  
What a mistake,  
What a mistake,

I've never been lost,  
I've never been found,  
And it make no difference, if I'm around,  
There's never been words, there's never been actions  
I've never been promises that i've never kept.

## CHORUS

Interlude by both Chad & Ryan:

I just can't seem to get out of this,  
Pulling on the threads,  
I'm always pulling on the threads,  
I'm always pulling on the threads,  
What a mistake, mistake.

So as i sift and drift through bullshit,  
That plagues from day to day,  
Would you ever really notice I've gone away?
