

Nicky Romero, Lighthouse

First light breaks the morning sky
Chasing the sunrise
We'll fly across the horizon
Stay awake

We drifted out to nowhere
Set out with hopes and dreams
And if you're lost in darkness
Come to me

Keep breathing I can be your lighthouse
If you need it I can be your lighthouse
Keep breathing I can be your lighthouse
If you need it I can be your lighthouse
Whoa whoa whoa I can be your lighthouse
Whoa whoa whoa I can be your lighthouse

I can be your lighthouse
I can be your lighthouse

Let's cruise time to discover how
Just sway with the ways we found
Gone with the wind so far away

When rocks I get underneath
Washed up in stormy seas
Don't ever you worry
Turn to me

Keep breathing I can be your lighthouse
If you need it I can be your lighthouse
Keep breathing I can be your lighthouse
If you need it I can be your lighthouse
Whoa whoa whoa I can be your lighthouse
Whoa whoa whoa I can be your lighthouse

I can be your lighthouse
I can be your lighthouse
