

Nicole Scherzinger, I Saw You With Her

I saw you with her
Baby you should've locked the door
I saw how close that you two were
You've loved her before
I saw you with her
I'm a witness
To your intense moments of passion
I saw you make a mockery of my feelings for you
You were giving her a love I'd never seen
I didn't know you knew
I saw you love her over and over again
Oh, Oh
I saw you with her
But never again
Yes, I saw you with her
While you spread kisses all over her
Through my tears
It was so painful to see
You without me
I saw you with her
Watching you love her
Completely destroyed me
I saw you with her
Baby you should've locked the door
I saw how close that you two were
You've loved her before
I saw you love her over and over again
I saw you with her
But never again
