

Nicole Scherzinger, Wild Dream

If I'll be your wild dream
You never wanna gonna wake up
Come lay you head down on me
I'll be, I'll be your wild dream

You and I, coz you raise
We can fly to paradise
Anything you want
Let's go .. deep in the countryside

You see I'm trying thinking into the deep
I shouldn't start it for anybody
One time I wake you up for eternity
Come get lost with me

If I'll be your wild dream
You never wanna gonna wake up
Come lay you head down on me
I'll be, I'll be your wild dream
