

# Nields, Alfred Hitchcock

What's it all about, Alfred Hitchcock?  
I saw every one of your films  
12 times.

My grandmother brought me to the movies  
When I was only 5 years old  
To see The Trouble with Harry  
It wasn't scary.  
In fact it was sort of pastoral/comic  
At least that's what I thought at the time

So I thought nothing of renting Psycho  
When I was all grown up and living by myself

I couldn't take a shower for a week then  
I had to take a sponge bath in the kitchen in broad daylight.

Alfred Hitchcock, what are you doing to our minds?  
I get the feeling that you're unkind  
I read what you said  
You want to play with our heads

But still I love to watch your movies  
Everyone from Vertigo to the Birds

That last one is really my favorite  
I love how 'Tippi' Hedren  
Drives along the coast road.

Alfred,  
Alfred
