

# Nightmare Of You, The days go oh so slow

Take a seat  
and catch your breathe  
You're only working  
Towards your death  
For us the days go by, They go by oh so slow  
But your blonde hair and gaping eyes  
send tingles down my nervous spine  
And now the days go by, They go by oh so slow  
But i'm yours if you want and  
I can be yours to spend your life with  
I can be yours, we'll hide indoors  
petrified of the world  
And if you'd rather stay in at night  
I can relate to that  
And if feels like your hearts dried up  
I can relate to that  
And if you need someone at your side  
I am out there, I'm out there, out there  
In the grass at Union Square  
I touched your face, pushed back your hair  
And said "The days go by, they go by oh so slow" (days go oh so slow)  
And in a room, upon your bed  
we tangled arms and crossed our legs  
When you sleep alone, the days go oh so slow  
But i'm yours if you want and  
I can be yours to spend your life with  
I can be yours, we'll hide indoors  
petrified of the world  
And if you'd rather stay in at night  
I can relate to that  
And if feels like your hearts dried up  
I can relate to that  
And if you need someone at your side  
I am out there, I'm out there, out there  
I am yours if you want and  
I can be yours to spend your life with  
I can be yours, we'll hide indoors  
petrified of the world  
And if you'd rather stay in at night  
I can relate to that  
And if feels like your hearts dried up  
I can relate to that  
And if you need someone at your side  
I am out there, I'm out there, out there
