

Nik Kershaw, Human Racing

Look at you glowing all shiny and fresh
Standing alone looking over the edge
It's a long way down
I wish I could give you a bullet proof skink
I wish I could show you the world that you're in
but I can't
You wouldn't understand
So there's not a lot I can say
Except please come back and see us all one day
Have a nice life, have a nice life
Hope you find all you're looking for
I hope it goes well, I hope it comes right for you
Have a nice life, have it your way
Hope you live long and prosper
I hope you get high, I hope you get lucky
And find the right one
I love you my precious, I love you my son
I'm sorry for all the bad things that I've done in the past
But it happened so fast
But it didn't quite go as I'd planned
But I hope to God one day you'll understand
Have a nice life, have a nice life
Hope you find all you're looking for
I hope it goes well, I hope it comes right for you
Have a nice life, have it your way
Hope you live long and prosper
I hope you get high, I hope you get lucky
And find the right one
The one love
The right one
