

Nik Kershaw, Monkey Business

Another cat amongst the pigeons
Another spanner in the scheme of things
I don't know why it shakes them up so much
They're so out of touch with me.

It isn't easy finding something new
The bible bashers beat you black and blue
Fire and brimstone raining down on you
But you know it's true, they know what they can do.

(Chorus)
Monkey business, mankind
I've got a theory that will blow your mind
Monkey business, you'll see
I got you swinging from tree to tree

I'm never sure about what they want
They put their collars on back to front
They got their answers and they don't like mine
But I'm only trying to help.

They say I should be full of shame and dread
They point to Genesis and shake their head
They don't know what it is they makes them tick
But I've news for them and it's not so romantic.

Monkey business, mankind
I've got a theory that will blow your mind
Monkey business, you'll see
I've got you swinging from tree to tree.
Monkey business, mankind
I've got a theory that will blow your mind
Monkey business, you'll see
You got an ape in your family tree.

We don't want monkey business
We don't want monkey business

Monkey business, mankind
I've got a theory that will blow your mind
Monkey business, you'll see
You've got an ape in your family tree
