

# Nikki Flores, Could You Ever Love Me That Way

Ooh, yeah

Took a while to think about your boy the other day  
Countin' down the hours until I can see your face  
I wish you would realize these words I'm tryin' to say  
I'm standin here, I wanna be, but do you even notice me?  
I can't see me with no one else  
Why's it too hard for you to tell?

Cause I think about you every single day  
And it kills me everytime I hear your name  
I love you but I feel so far away  
I'm asking you, just let me know, boy think about it  
Could you ever love me that way?

Tryin' hard to ignore these voices screamin' in my mind  
Tellin' me I'm nothing, that I shouldn't waste my time  
Something about you made me wanna spend my life  
With you alone, nobody else, I'm prayin' for that day to come  
Although you'll never know I'm here, no  
I always try to make it clear

Cause I think about you every single day  
And it kills me everytime I hear your name  
I love you but I feel so far away  
I'm asking you, just let me know, boy think about it

Cause I think about you every single day

And it kills me everytime I hear your name  
I love you but I feel so far away  
I'm asking you, just let me know, boy think about it  
Could you ever love me that way?

Oooh I cannot make it clear  
I've been standing here  
But boy you'll never see  
How much you mean to me  
I wanna let you know  
You never hear me though  
No matter what I say  
You'll always be the same  
Why can't you look at me?  
Boy I just wanna be  
I can't live my life without you near me

Cause I think about you every single day  
And it kills me everytime I hear your name  
I love you but I feel so far away  
I'm asking you, just let me know, boy think about it

Cause I think about you every single day  
And it kills me everytime I hear your name  
I love you but I feel so far away  
I'm asking you, just let me know, boy think about it  
Could you ever love me that way?
