

Nikki Webster, Individuality

VERSE 1:

Now everybody's always try'n fit in somewhere
We change the way we act and the clothes that we wear
The magazines are telling us what to look like
But no one's ever saying we should look inside

We think that its cool
To do what others do
But what is really cool
Is being true to you

CHORUS:

It's about individuality
And being who you wanna be
Not someone the crowd wants to see you be
Individuality
Sometimes it's better just to stand your own
And be an individual

VERSE 2:

Now everybodys always bragging 'bout who did what
They're doing crazy things thinking that's grown up
Well that's not the person that I want to be
I'm gonna live my life the way that I believe

We think that its cool
To do what others do
But what is really cool
Is being you to you

CHORUS
