

Nikki Webster, Red Light Green Light

I've seen you,
Looking over your shoulder,
When we pass in the hall.

And I heard you,
You said that you told her,
'You like me most of all'

But I believe,
In showing not telling,
It's love a girl really needs.

If you want her,
Then you gotta,
Chase me till you see.

RED LIGHT,
Better stop right where you are,
Don't be crossing over lines,
Till you see me change the sign to

GREEN LIGHT,
Means tonight may be the night,
Get yourself in gear and go,
Kiss me boy - just take it slow.

'Cause you've got,
Till June - it's September,
Let's not rush it along,

Make this year,
A ride to remember,
Don't be steering me wrong.

Even though,
I'm driving you crazy,
Don't spin out of control.

If you want her,
Then you gotta,
Think before you go (thru that)

RED LIGHT,
Better stop right where you are,
Don't be crossing over lines,
Till you see me change the sign to

GREEN LIGHT,
Means tonight may be the night,
Get yourself in gear and go,
Kiss me boy - just take it slow.

Like the turtle not the hare,
You will win my heart I swear,
Just keep your eyes on the signs.

Red light - Green light 123,
Hurry boy and come to me.

Green Light.

Red light - Green light 123,
Don't waste time or you will see.

RED LIGHT,
Better stop right where you are,
Don't be crossing over lines,
Till you see me change the sign to

GREEN LIGHT,
Means tonight may be the night,
Get yourself in gear and go,
Kiss me boy - just take it slow.
