

Nikki Webster, Zero Gravity

Racing at the speed of sound
I can barely touch the ground
whenever you're near, i'm losing my fear
makes me feel like flying
never knew a love could be better than my wildest dreams
then out of the blue, suddenly you
swept me off my feet

I cant stop now
I need, I want, come on, get on
baby you now how
to take me even high
dont you stop now
we're gonna go out of control
start the count down
you really got me going

CHORUS:
every little kiss, every little touch
every little taste like a sugar rush
boy you're gonna rocket me
into zero gravity
making me hot, you're making me melt
better slow down I cant help myself
boy you're gonna rocket me
into zero gravity

Burning with intensity
at terminal velocity
blowing my mind every time
you take my breath away
baby come and hold on tight
and we can see the stars tonight
lighter than air you're really got me where
we can touch the sky

I cant stop now
I need, I want, come on, get on
baby you now how
to take me even high
dont you stop now
we're gonna go out of control
start the count down
you really got me going

CHORUS:
every little kiss, every little touch
every little taste like a sugar rush
boy you're gonna rocket me
into zero gravity
making me hot, you're making me melt
better slow down I cant help myself
boy you're gonna rocket me
into zero gravity

(higher, higher)
please take me to that place
(higher, higher)
where no-one's ever been before
(higher, higher)
and ain't never gonna come back down
(higher, higher)
oh oh

CHORUS:

every little kiss, every little touch
every little taste like a sugar rush
boy you're gonna rocket me
into zero gravity
making me hot, you're making me melt
better slow down I cant help myself
boy you're gonna rocket me
into zero gravity

(chorus till end)
