

Niko, Night Of Fire

Welcome to my broken low
Welcome to the famous disco live

Come on lady come and go
Come on lady get me once and right

Not a danger, not a blacky stranger
Rock it - rock it - knock to my door I'll open
Speak me name now, speak it you know how
Fly to me, get ready for the

Night of fire, you've better better stay
You've better better begin the prayer to play

Night of fire, come over over me
Come over over the top you've never been here
(You'll have a night of fire)

Welcome to my rocky show
Welcome to the fire of the night
Come on babe let it go
Come on babe let me stick you tight
