

# Nina, Goodnight But Not Goodbye

When I look at your girl/boy, the stars come out  
And I no longer feel a doubt  
You're my reason why  
My strength to keep on trying  
A river in my heart that wont run dry

This love is a wish you made come true  
I closed my eyes and dreamed  
That I'd find an angel just like you

This love is a dream that came like clouds out of the blue  
Raindrops fill my eyes  
Goodnight but not goodbye

When I think of how much you mean to me  
When you say I'm the world to you  
Girl/boy, it's infinite  
We'll never call it quits  
You and I are such a perfect fit

This love is a wish you made come true  
I closed my eyes and dreamed  
That I'd find an angel just like you

You're the best thing in my life  
And I'm gonna get it right  
I will be your shining knight 'cause you are my shining knight

This love is a wish you made come true  
I closed my eyes and dreamed  
That I'd find an angel just like you

This love is a dream that came like clouds out of the blue  
Raindrops fill my eyes  
Goodnight but not goodbye
