

Nina Simone, No Good Man

Dan Fisher, Irene Higginbotham, Sammy Gallop

No good man
Loving on a no good plan never treats me as he should
And that ain't good he's always bringing me down
He's no saint Heaven knows taht's what he ain't
Spends his money foolishly and not on me
I'm the one who gets the run around
I ought to hate him but still I love him so
Cos I require love that's made of fire
And in his arms I find always get that kind
No good man
Ever since the world began tere's been other folks like me
Born to be in love with a no good man
I ought to hate him but still I love him so
Cos you see I require love that's made of fire
And in his arms I find always get that kind
No good man
Ever since the world began tere's been other folks like me
Born to be in love with a no good man
