## Nine Black Alps, Not Everyone

Hey You're not the first You're not the last To hold me back

Yeah It's such a shame It's such a waste To hesitate

Now I've seen the light I've heard the sound Of bringing others down

Not everyone deserves the sun Not everyone lives for too long Not everyone can turn you on Yeah

Strange What people say About your face The way it changed

It's hard To fall behind They bleed you dry And blow your mind

Now You've lost control You've let it show And now no-one knows

Not everyone deserves the sun Not everyone lives for too long Not everyone can turn you on Yeah

Just say my name Just say my name Just say my name Just say..

Not everyone deserves a song Not everyone lives for too long Not everyone can turn you on Yeah

Not everyone deserves a lie Not everyone deserves to die Not everyone can bleed you dry Yeah
