

Nine Inch Nails, Closer (To God)

You let me violate you
You let me desecrate you
You let me penetrate you
You let me complicate you

I broke apart my insides
I've got no soul to sell
The only thing that works for me
Help me get away

I wanna fuck you
I wanna taste you
I wanna feel you
I wanna be you
Just like an animal

You can have my isolation
You can have the hate that it brings
You can have absence of faith
You can have my everything

You tear down all my reason
You see through what I hide
You make me perfect
Help me get inside
I wanna fuck you
I wanna taste you
I wanna feel you
I wanna be you
