Nine Inch Nails, Closer (To God)

You let me violate you You let me desecrate you You let me penetrate you You let me complicate you

I broke apart my insides I've got no soul to sell The only thing that works for me Help me get away

I wanna fuck you I wanna taste you I wanna feel you I wanna be you Just like an animal

You can have my isolation You can have the hate that it brings You can have absence of faith You can have my everything

You tear down all my reason You see through what I hide You make me perfect Help me get inside I wanna fuck you I wanna taste you I wanna feel you I wanna be you
