

Ninja 9000, Live The Future

Everybody's looking for a meaning
Everybody's doing their own thing
And nobody's solving the problem
Ain't nobody helping each other

Some people give into fear
Some people give into hunger
Some of us live for the future
And some of us wonder
And some of us wonder

Givin' into life, givin' into love
Maybe there's enough for everyone
Givin' into hope, and into trust
Maybe there's enough for everyone

Everybody's looking for a meaning
Everybody's doing their own thing
And nobody's solving the problem
Ain't nobody helping each other

Some people give into fear
Some people give into hunger
Some of us live for the future
And some of us wonder
And some of us wonder

Givin' into life, givin' into love
Maybe there's enough for everyone
Givin' into hope, and into trust
Maybe there's enough for everyone

Everybody's looking for a meaning
Everybody's doing their own thing
And nobody's solving the problem
Ain't nobody helping each other

Some people give into fear
Some people give into hunger
Some of us live for the future
And some of us wonder
And some of us wonder

Givin' into life, givin' into love
Maybe there's enough for everyone
Givin' into hope, and into trust
Maybe there's enough for everyone
