

Nirvana, Do Re Mi

If I may
If I might
lay me down weeping
If I say
What is like
I might be dreaming
If I may
What is right
Summer time, see me heal
Those years in his vomit
A phrase from his pocket
And chains holding the wind, lifelong dream
Dream
Do re mi
If I may
If I might
wake me up, see me
If I do
If I like
Find me how to see me
If I may
Cold as ice
I may, how to see me
Raised in his socket
It fades from his moment
A chase from his socket I will need
Ray
Dream
Do re mi
Do re mi
Do re mi
Do re mi
Wish me good
Wish me light
Break me down, see me
In your way
Just be quiet
Follow pain & bleed me
Yell or wail
And if I sigh
Sink me how, TV
If I may
And if I might
gun in gold to Bleed
Praise in his pocket
Praise from his moment
A chase from his own in my tea
Ray
Dream
Rape Me
Do re mi
Do re mi
Don't rape me
Do re mi
