

# nita, Thunder (piosenka na Eurowizja 2024)

Oh, it's feeling so good  
Love that is so new

City lights  
Something inside me  
Glowing more than feelings to guide me  
Looking up  
I keep looking up now

Just like the currents it pulls me and won't let go  
Waves of emotions  
And echoes of love unknown

Somewhere in a crowded sky  
Both of our clouds collide  
We burning so bright like a wildfire at night  
Oh it's feeling so good  
Tensions rise  
Darker skies are close  
A love so new  
I'm reaching to you

Roll like thunder  
Pull me under with you  
Hearts on fire  
With this Burning Symphony  
Roll like thunder  
Pull me under with you  
Hearts on fire  
With this Burning Symphony

Moonlight falls as we lose all control  
Dreams unfold as we break the mould

Just like the currents it pulls me and won't let go  
Waves of emotions  
And echoes of love unknown  
Tensions rise  
Darker skies are close  
A love so new  
I'm reaching to you

Roll like thunder  
Pull me under with you  
Hearts on fire  
With this Burning Symphony  
Roll like thunder  
Pull me under with you  
Hearts on fire  
With this Burning Symphony
