

# Nivea, No Doubt

You should know  
No doubt, no doubt, no doubt, no doubt  
You should know  
No doubt, no doubt, no doubt, no doubt... no doubt  
You should know  
No doubt, no doubt, no doubt, no doubt  
You should know  
No doubt, no doubt

You should know by now that I really like when you're around  
It's so irreplaceable, what we have with you and I  
And you should know by now that we belong on each other's team  
One of the greatest things that came to be is you and me, you and me  
I hope by now you recognize no matter what I'm here for life  
You ain't getting rid of me, that is just the bottom line  
I think you understand by now we can always work it out  
No matter what, I'm down, I'm down

There ain't no doubt that I still love you  
No doubt I love you babe, really really love you babe  
There ain't no doubt that I still want you  
No doubt I want you babe, really really want you babe  
Shouldn't be no doubt that I'm here for you  
No doubt I'm here for you, really really here for you  
I have no doubt about being with you  
It's me for you

Thinking back on what I did to cause you so much pain  
It was such a silly thing I did to our relationship  
But here's something from the heart, I really do apologize  
Don't cut me off cause I really love ya  
I love ya babe, love ya babe  
And I want ya, I want ya babe, want ya babe

Said I'm here for ya, for ya babe, for ya babe  
Forever I'm with you, I'm with you

Baby can't you see you belong with me  
I'll be here for you so I'm telling you

There ain't no doubt that I still love you  
No doubt I love you babe, really really love you babe  
There ain't no doubt that I still want you  
No doubt I want you babe, really really want you babe  
Shouldn't be no doubt that I'm here for you  
No doubt I'm here for you, really really here for you  
I have no doubt about being with you  
It's me for you

(Spoken)  
Look baby, I want you to know I love you  
And I always will.. don't worry, cause you know...

There ain't no doubt that I still love you  
No doubt I love you babe, really really love you babe  
There ain't no doubt that I still want you  
No doubt I want you babe, really really want you babe  
Shouldn't be no doubt that I'm here for you  
No doubt I'm here for you, really really here for you  
I have no doubt about being with you  
It's me for you

You should know  
No doubt, no doubt, no doubt, no doubt

You should know  
No doubt, no doubt, no doubt, no doubt... no doubt  
You should know  
No doubt, no doubt, no doubt, no doubt  
You should know  
No doubt, no doubt
