

# Nivea, Problems

I won't take no lies, hanging out all night  
The gig is up, enough, it's enough  
You're wrong, dead wrong, won't take no more  
Cause I see your game and dumb is not my name

Pack your bags, call you a cab  
No more laughs  
Cause I'm not the one that you're gonna play on  
Move along, sing a song

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them

Got love for you, but I can't stand you  
I page you, you won't call  
What's a 2-way for  
Strike one, strike two, strike three, no more me  
Cause I see the game and dumb's not my name

Pack your bags, call you a cab  
No more laughs  
Cause I'm not the one that you're gonna play on  
Move along, sing a song

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them

We can do this any way that  
You want cause I don't care  
It's no problem and I'm not the one

Pack your bags, call you a cab  
No more laughs  
Cause I'm not the one that you're gonna play on  
Move along, sing a song

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them

(Over Chorus)  
It's plain to see, you can't have me  
Cause you gon' be a playa for life  
It's plain to see, you can't have me

Cause you gon' be a playa for life  
It's plain to see, you can't have me  
Cause you gon' be a playa for life  
It's plain to see, you can't have me  
Cause you gon' be a playa for life

You give me problems, problems  
Too many problems  
Don't want no problems, problems  
No time to solve them
