

Nivea, Problems

I won't take no lies, hanging out all night
The gig is up, enough, it's enough
You're wrong, dead wrong, won't take no more
Cause I see your game and dumb is not my name

Pack your bags, call you a cab
No more laughs
Cause I'm not the one that you're gonna play on
Move along, sing a song

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them

Got love for you, but I can't stand you
I page you, you won't call
What's a 2-way for
Strike one, strike two, strike three, no more me
Cause I see the game and dumb's not my name

Pack your bags, call you a cab
No more laughs
Cause I'm not the one that you're gonna play on
Move along, sing a song

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them

We can do this any way that
You want cause I don't care
It's no problem and I'm not the one

Pack your bags, call you a cab
No more laughs
Cause I'm not the one that you're gonna play on
Move along, sing a song

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them

(Over Chorus)
It's plain to see, you can't have me
Cause you gon' be a playa for life
It's plain to see, you can't have me

Cause you gon' be a playa for life
It's plain to see, you can't have me
Cause you gon' be a playa for life
It's plain to see, you can't have me
Cause you gon' be a playa for life

You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
