

Nixons, Happy Song

I would fly away
I would fly to heaven
Tip toe in the back
If I knew where it was at

I could smile this way
I could smile forever
Vision in my mind
A place that has no time

Come take me there
While the world is laughing, it looks so sad
Come take us there
And I'll show you what its like
Make it rain

I could smell this way
Could go on forever
I'll never clean myself
You can all go straight to hell

Come take me there
While the world is burning, it barely turns
Come take us there
And I'll show you what its like

Make it rain, make it rain forever
Make it rain, and I'll stay for dinner
What are we having tonight?

When I close my eyes, I can see forever
Never be myself, I could never be anybody else

Come take me there
While the world is burning, it barely turns
Come take us there
And I'll show you what its like

Make it rain, make it rain forever
Make it rain and I'll stay for dinner
Climb to heaven
Hang me on the wall she said
They all go down, they all...
Make it rain
