

NLE Choppa, Ima Dogg

Hey Bryson

I just wanna let you know you not a cool person

You invited me to come out to LA

And the next morning, you told me to get up, and get out, and call for my own ride when I was half
I sat at the end of that bed

And I took a picture with that little dusty ring, if that's what you mad about

But I was half awake

But how you did me, was so disrespectful

You invited me out there, and you disrespected me

And then for you not to even tap in and say, "Hey, you good?"

Now that's just fucked up

If you come to Cali', just remember this my hood

Haha
