Never can, never can, never can fall [x2]

[Verse 1:]

Hold up wait let me tell you something

You can't say that you don't wanna trust me

Don't be fake it's not to late to stay

Baby girl makin a big mistake

If you think that I'm not down with love then

I can show you, I can show you something

Cause I can try to be no other man

Cause ain't nobody else can do it like I can

[Bridge:]

I, I wanna be that guy

Who can save you from the past you left behind (left be, left behind)

And I, I want to show you why (show you why)

Cause I can trust ya (trust ya)

Love ya (love ya)

Cause baby just give me a chance

[Chorus:]

Every time you fall I won't let you down

I'll always keep you up you can't hit the ground

Jump jump, jump jump. Just jump jump, jump jump.

Come with me, and I will rescue (I will be right there)

If you need me to catch you (So girl you can't be scared to)

Jump jump, jump jump. Just jump jump, jump jump.

(I can be your para, I can be your parachute)

[Verse 2:]

You see I f-f-f-feel it

Just in us cause baby I can't take it

Cause I don't wanna be just a friend

I'm gonna stick with you until the end

Feel the rush deep inside you turning

Out of touch you didn't read the warning

You may think that this is way too soon

Why can't you just accept that I love you?

[Bridge:]

Cause I, I wanna be that guy

Who can save you from the past you left behind (left be, left behind)

And I, I want to show you why (show you why)
