No Angels, When The Angels Sing

And when the angels sing I want you by my side I don't care how long I've been waiting for my baby And when the angels bring You back here in my life Then I know i'ts true That I love you

I was so blind I was so wrong The day we met it never leaves my mind I thought you play some foolish game But now my heart tells me I was wrong

And when you come around I let you inside Cause I'm ready I can't wait anymore

And when the angels sing I want you by my side I don't care how long I've been waiting for my baby And when the angels bring You back here in my life Then I know i'ts true That I love you

Each night I pray that you'll come back I can't deny what I feel inside The music plays one special song The words that they say I hope can bring you home

And when you come around I let you inside Cause I'm ready I can't wait anymore

And when the angels sing I want you by my side I don't care how long I've been waiting for my baby And when the angels bring You back here in my life Then I know i'ts true That I love you

I know I've cried so many times I know I've said things I was running away I was wrong

And when the angels sing I want you by my side I don't care how long I've been waiting for my baby

And when the angels sing I want you by my side I don't care how long I've been waiting for my baby And when the angels bring You back here in my life Then I know i'ts true That I love you

And when the angels sing I want you by my side I don't care how long I've been waiting for my baby And when the angels bring You back here in my life Then I know i'ts true That I love you
