

No Angels, You Lied

She was beautiful
That girl we passed today
Her smile too intimate
Before she turned away
And I saw the face of confusion
Broke through your mask of illusion
And walked inside
I saw what the hell you been doing

Uh oh uh oh, uh oh uh oh, you lied
And I know it
Uh oh uh oh, uh oh uh oh, you lied
And I know it

Don't say
She is nothing to you
I am everything
It's so strange
The times before now
I'm remembering
When you talked away my suspicions
I swallowed my intuitions
And closed my eyes
So what the hell was I thinking

Uh oh uh oh, uh oh uh oh, you lied
And I know it
Uh oh uh oh, uh oh uh oh, you lied
And I know it

The truth changes everything
You know what I think?
That's what I think
You love note is not worth
The paper you wrote it on
So I'll be gone
