

No Assembly Required, Purification

don't try to stop me
if you want to then you'll have to fight me
and you wouldn't like that
shot gun blast your face
you wouldn't think fast
so what? no second chances
you suffer and, you suffer and, you suffer and
all burn, you burn, defy everything you've earned

all my kind, are we
not alright? so we
must all fight, feel me
now we rise

all rise, i'm here now
get the fuck up, now. no time to sit down
so why? you ask me?
take a look around it's fucking nasty
so burn, and learn the meanings of your own terms
this time
finding yourself will be divine

i will purify

sin, tell me, make me, all better
together we'll make it better
