

No Authority, Can I Get Your Number (A Girl Like

Can I get your number baby
Hit me with the seven digits
Can I get your number baby
Hit me with the seven digits

When you walked through that door
I nearly lost my mind
Your sexy attitude
And something 'bout your smile
I knew right then and there
I had to know your name
I had a crush before
But this just ain't the same

Cause I've never fallen in love before
With a girl I didn't even know
And there's somethin' about you
That tells me that I should be down

[Chorus:]
I've been east
I've been west
We've been all around the world
But I've never seen a girl like you
(Seen a girl like you)
I've seen blondes and brunettes
And some really hot redheads
But I've never seen a girl like you
(Seen a girl like you)

Can I get your number baby
Hit me with the seven digits
Can I get your number baby
Hit me with the seven digits

Must be a supermodel
You're a perfect ten
Your body's off the hook
And girl I must confess
If you were on display
I'd wait all week in line
I better check my vision
Cuz I can't believe my eyes

Cuz I've never fallen in love before
With a girl I didn't even know
And there's somethin' about you
That tells me that I should be down

[Chorus]

Can I get your number baby
Hit me with the seven digits
Can I get your number baby
Hit me with the seven digits

Cause I've never fallen in love before
With a girl I didn't even know
And there's something about you
That tells me that I should be down

[Chorus 3x]
