

No Doctors, Floating Woman

It always takes so long
For me to get trough to you
It always takes so long
To know what I should do
It always takes so long
To see myself again
But when I do
Girl you know I look just like you
And then it all comes true
La di da di, ba ba
Sun shatter indiscreetly
Carve your name to my branch

It always hurts so bad
So far away
It always hurts so bad
Just one more day
It always hurts so bad
I fucked it up again
When I do
Girl you know I do it for you
And then it all comes true
La di da di, ba ba
Sun shatter indiscreetly
Carve your name to my branch

Baby, I know what you've been up to yeah
Don't mind it
Do the same thing myself
Might be anything
A one two or three type thing
Slide through the magic
Come together
Chloessa be my
Floating woman tonight
