

No Doctors, Lost In The Fog

Deep in the mission,
Under a vow,
Lost in a fog, lost in a fog,

Hand on a compass,
My head in a bow,
Lost in a fog, lost in a fog,

Each of the mysteries opening now,
Searching for signs of life,
This murderous, mutinous crew has decreed,
An eye for an eye, the monkey must bleed,

We're lost inside a fog,
We're lost inside a fog,
Lost in a fog,
We're lost in a fog,
Lost in a fog,
We're lost in a fog,

Tail of a lion,
Trailing our team,
Lost in a fog, lost in a fog,

Asking an eagle
To enter our dream,
Lost in a fog, lost in a fog,

Man and a woman are not as they seem,
Searching for signs of life,
Everything closer than ever before,
The wind and the whisper, the sign on the door,

We're lost inside the fog,
We're lost inside the fog,
Lost in a fog,
We're lost in a fog,
Lost in a fog,
We're lost in a fog.
