No Doubt, Mighty Mouse

played live in 1989

Mr. Trouble never hangs around When he hears this mighty sound... "Here I come to save the day!" That means that Mighty Mouse is on the way. Yessir when there is a wrong to right Mighty Mouse will join the fight On the sea or on the land He gets the situation well in hand So though we are in danger We never despair Cause we know that where there's danger He is there! He is there! On the land! On the sea! In the air! We're not worryin' at all We're just listenin' for his call "Here I come to save the day!" That means that Mighty Mouse is on the way!
