

# No Motiv, Give Me Strength

Another day  
another dollar to go on  
you've lost your way  
you've gotta find another savior  
Cause modern man  
has something more to it all  
You've lost your touch  
You're falling out of luck  
Did you lose something on your way down here?  
and I forgot my sin  
and I'm losing it  
losing it, losing it!

Give me strength  
give me power to go on  
hear me say all those good things you are  
Give me strength  
give me power to go on  
hear me say all those good things you are

You lost a day to living in the fear of  
what might delay a finding of better ways  
Cause modern man  
has something more to reveal  
You've lost you touch  
and you're falling out of luck  
Did you lose something on your way down here?  
and i forgot my sin  
and im losing it  
losing it, Im losing it!

Give me strength  
Give me power to go on  
Hear me say all those good things you are  
Give me strength  
Give me power to go on  
Hear me say all those good things you are

Did you lose something on your way down here?  
Did you lose something on your way down here?  
Did you lose something on your way down here?  
Did you lose something on your way down here?  
Did you lose something on your way down here?!  
Did you lose something on your way down here?!

Give me strength  
Give me power to go on  
Hear me say all those good things you are  
Give me strength  
Give me power to go on  
Hear me say all those good things you are.
