

# No One, Chemical

It's hard to perceive  
My mind is at ease  
It's hard to believe  
I don't feel a thing

Am I wrong to feel  
Such bliss that ain't real  
Can I keep it from  
taking over me

Fell into this moment  
Now this chemical is taking the  
Inside right out of me  
I found a mountain of pure endless energy  
I keep telling myself it's not reality

Now i'm seeing, now i'm seeing  
That the world around me is changing  
once it was a break that I could keep  
I tried to walk away but I can't

What? What's inside my brain?  
What's breaking my down?  
What's inside this raging chemical

Now it's time for me  
To rest with ease  
Now it's time  
To allow my mind relief

But I can't stop  
This feeling that I need  
Can I keep it from  
Taking over me

Forget all the regrets  
As I indulge myself with every breath  
Of this moment  
Knowing I can't taste the beauty of life again  
Without a chemical flowing through my head

Now i'm feeling, now i'm feeling  
That the world around me's now changing  
Once it was a break that I could keep  
I tried to walk away but I can't

I feel it  
I see it  
I need it... so bring it to me

Never again, never again  
Will I feel the same, feel the same  
About me  
Can I begin, can I begin to start  
My whole life over again

Never again, never again  
Will I walk the same, feel the same  
Around here  
Can I forget, can I forget that which  
Lives within me?

Never again, never again  
Will I breathe the same, breathe the same

Air in  
I want to live, I want to live  
But they say never! never!

What? What's inside my brain?  
What's breaking my down?  
What's inside this raging chemical

What? What's inside my soul?  
What's breaking my down?  
What's inside this raging chemical
