

# No Secrets, No Secrets

Secrets (secrets) are no fun  
Secrets (secrets) hurt someone  
Let me tell you how it all began  
A little secret got out of hand

I ran into him just by chance  
At this party we were talking then we started to dance  
The music banging' then he leaned in close  
My mind is telling' me that I should go (but I stayed)

In a moment of weakness (a mistake)  
But I kept it a secret  
Soon enough I found  
Secrets have a way of getting out

Cross my heart and hope to die  
I swear these lips will never tell another lie  
If you could love me like you did before  
I promise if you'll just come back to me I swear no secrets, no deceit  
I'll be your angel oh so sweet no secrets will I keep

Every night I light a candle  
Every morning well I say a little prayer  
In hopes that when I open my eyes  
I will find you standing there

I confess a crime against our love  
My loneliness is punishment enough  
Forgiveness is Devine  
Everyone keeps secrets sometimes

Cross my heart and hope to die  
I swear these lips will never tell another lie  
If you could love me like you did before  
I promise no secrets forever ever more

Angels in heaven above  
I know I've sinned against love  
Grant me this one miracle  
And I'll be a saint from now on

Look in my eyes and it's that that you see it  
It's been two weeks since my confession  
And still he's not back in my arms  
My love for you is the truth cause my heart keeps no secrets  
Heaven just give me a sign; tell me his heart is still mine

Cross my heart and hope to die  
I swear these lips will never tell another lie  
If you could love me like you did before  
I promise no secrets forever ever more

Cross my heart and hope to die  
I swear these lips will never tell another lie  
If you could love me like you did before  
I promise  
I promise no secrets forever more
