

# No Secrets, On The Floor

Our jam is pumpin' on your radio.  
I know you see my brand new video.  
Our face is always in the magazines.  
Now here's a side of us you've never seen..repeat)

Feels good comin' from your stereo  
Tonight getting ready for the party so  
All my friends blowin' up my line  
Sayin, "Girl what's going down tonight?"

So I tell em' where the party's at  
Full swing, is everybody down with that?  
Just a blast from my favorite song  
Cause we'll be dancin' all night long

Don't ya'll love being at your favorite spot  
Where the feeling is good  
And the music is hot (hot)  
Don't ya'll love being at your favorite place  
Where the D.J's got you...

On the floor  
That's where it goes down  
Everybody's dancin' to my brand new sound  
That's right got to move tonight  
On the floor,  
On the floor  
That's where you got to be  
Move and shakin' it constantly  
That's right, got to move tonight  
On the floor tonight

Our jam is pumpin' on your radio  
I know you see my brand new video  
Our face is always in the magazines  
Now here's a side of us you've never seen

It's about time to move it to the next phase  
My house, the party's back at my place  
All my friends standing by my side  
Sayin' girl look what you've done tonight

Hot guys, really wanna tear it up  
Hot girls, got the moves to make em' drop  
When the music's pumpin' loud (get down)  
I lose myself out in the crowd

Don't ya'll love being at your favorite spot  
Where the feeling is good  
And the music is hot (hot)  
Don't ya'll love being at your favorite place  
Where the D.J's got you...

On the floor  
That's where it goes down  
Everybody's dancin' to my brand new sound  
That's right got to move tonight  
On the floor,  
On the floor  
That's where you got to be  
Move and shakin' it constantly  
That's right, got to move tonight
