

Nobodys, Another Stupid Song

It's in the way that you walk.
It's in the way that you talk.
It's in the way that you do all the stupid things you do.
It makes me wanna take a rock.
And wrap it up inside my sock.
It makes me wanna take a 2X4 and beat the hell out of you.

Just another stupid song for another stupid girl.
One i wish, one i wish i never knew.

You're such a stupid f**king slut.
I think i really hate your guts.
I really hope all those bad things will come back to you.
I think you're really f**king lame.
I wish you'd f**king go away.
I really want you to pay for all the shit you put me through.

Just another stupid song for another stupid girl.
One i wish, one i wish i never knew.

It's in the way that you walk.
It's in the way that you talk.
It's in the way that you act so f**king lame.
I wish you'd just go.
I think you're really f**king dumb.
I think your brain is f**king numb.
You really gotta be the stupidest f**king girl that i know.

Just another stupid song for another f**ked up girl.
One i wish, one i wish i never knew.
