

NOFX, Bang Gang

We don't care,
Cause we're in a gang
Parties that we go end up in a bang
Look at us funny and we'll shoot you dead
While we're there we'll fill 'em with lead
We follow the gangs, we are the worst
We'll be the last one,
But we weren't the first
We've been in a gang for a year and a half
There goes our future,
But we live in the past
Let's go out, shoot some people tonight
We use guns, cause we don't wanna lose the fight
When we fight, it's 20 on 1 it's funny that way,
It's much more fun everyone knows that we're so bad
Our knives are long and our day is short
Our nights our long, and our days are sad
But we don't care cause we're in a gang
