

# NOFX, Electricity

One source of energy  
the ultimate discovery  
electric blue for me  
never more to be free  
electricity  
nuclear and H.E.P.  
Carbon fuels from the sea  
wasted electricity

One source of energy  
electricity  
all we need to live today  
a gift for man to throw away  
the chances has nearly gone  
the alternative is one  
final source of energy  
solar electricity
