

NOFX, I Wanna Be Your Baby

Open your self, let me inside

Open your arms, I have nowhere

To go, so let me in to you

I need to be where nothing can hurt me

Open your legs, to let me crawl

Inside of you, I need to be

Inside your womb, So take me home

Inside of you, envelope me, I'm home

I wanna be your baby

Bringin' me down

Bringin' me down

Open your lips and take me in

I need to be inside within

Let me become a part of you

Let me inside of you, swallow me whole

I want to know the things you hide

I want to feel the things you feel

I want to breath the air you breathe

I want to live inside of you, take me

Bringin' me down

I wanna be your baby

Let me live inside
