

Noisettes, Speedhorn

I was standing on the corner of my dream
Faces getting hotter
Temperature is rising up inside of my soul
Like a madman's daughter.
The time is right and so am I
Come and fly into the night sky brother, oh.

Is there nothing I can do
To make you smile
Nothing I can borrow
Nothing I can beg or steal
To change your minds way
Cause I feel out of order
Name your price, I'll pay it twice
Roll the dice, would you really die for another?

Be my speedhorn
Fuel my raging heart
Oh my lover
Come on feel the spark
See I won't bite
See that girl can bark
All I want to do is be the one you love, oh yeah
Only want to be the one you love, yeah
All i want to do, yeah!

Be my speedhorn
Fuel my raging heart
Oh my lover
You make me feel so
Like I could be far
Oh my lover

I am laughing but I'm fraying at the seams
Can't control the holler
Temperature is rising as the story unfolds
Lost my friend to the water
On my grave, next to my name
They'll say: "She loved, she lost,
Yet never ceased to be amazed"

There is something you can do
To make me smile
Don't wait 'til tomorrow
Pressure can be swallowed
See cause she lost her heart
Diving in for another

You named your price, I paid it twice
There's no more dice and now
You're taking the piss

Be my speedhorn
Fuel my raging heart
Oh my lover
She'll cut your body parts
See I won't bite
They say that bitch can bark

All I want to do is be the one that you love, whoa yeah
Oh my love the one you love
Never wanna be the one you lost
All I wanna do, yeah

Be my speedhorn
Fuel my raging heart
Be my speedhorn oh yeah,
Be my speedhorn
Fuel my raging heart
Oh my lover

Losing control now
Who's in control now
Losing control
I was on a roll now
Losing control now
Who's in control now
Losing control
See now I was on a roll now
I'm losing control

Be my speedhorn
Fuel my raging heart
Oh my lover see you got the spark
Why don't you be my speedhorn
Fuel my raging heart
Oh my lover, oh you got the spark
Be my speedhorn, oh my love

You make me roll
I loose control
You loose control
I loose control
Loose con-trol, loose con-trol
Oh I loose control
Be the one in heart
