

NOKO, Bad Thoughts

I've been waiting for all the bad thoughts to go
I've been heading on down, with my hands bound, head low
Feeling there is no one nowhere there,

What I feel is so

Wrong fading down and cold
Heading hell, eyes low
Feeling there so gone, yeah
As I'm waiting on

It's returning, says like it's time to go
Hear me breaking down, when searching life for joy
Now what I found, knocks me down
See them went before me

As I lied down and

Crawl fading down and cold
Heading hell eyes low
Feeling there so gone, yeah
As I'm waiting on

I've been waiting, I've been heading downwards
Feelin it's coming away, coming away, yeah
I've been breaking take the pain gone away
Make it go away

It's going away now, It's coming again now
It's going away now, It's coming again now

I've been waiting, I've been heading downwards
Feelin it's coming away, coming away, yeah
I've been breaking take the pain gone away
Make it go away
