One two, one two,
Coming life for youz and yours
This is my love
Come on

Spread love for the music we call Hip Hop
(Come on)

Pismo

Come on

Put your fist up
Spread love for the music we call Hip Hop

Verse:

I met you in a dream
Twentyone looking nineteen
You was a nice thing
Amazing with the [?]
Down with the real scene
Stepping with your Gucci bag
She noticed me too
New designer jeans that sack
In Harajuku
With one glance
Wickeded time
You wanted tapioca
I said it with my rhyme
A guy ain't looking ready yet
But I still managed to speak
You start laughing asking why's my Japanese so weak
At that home

Where we was on it
Our energie is zomin'
You asked me what I do
I said producing microphonin'
An occasional DJ
I play these days
But I won't do a gig
If the shit don't pay
Game recognise game
No change

The condition is right for the night
Spark the flame
You asked how could it last for ever
Taking such a risk
Like this

With one fist

Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop
Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop
Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop
Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop

She seemed a little blitz
Since I'm making money like this
She got some [?]
Planning on ever having some kids
She started making sense
Hence fourth
Let it be known

I hose down the homebase
Till I have the whole place
The racing thought
Walk with me
Widdy through the city
Could see it in her eyes
She wanna be my pie
So I
Feel like showing how I really like to be
I got a show tonight
It's only right you're coming with me
At that home
Where we was on it
Our energie is zomin'
You asked me what I do
I said producing microphonin'
An occasional DJ
I play these days
But I won't do a gig
If the shit don't pay
Game recognise game
No change
The condition is right for the night
Spark the flame
You asked how could it last for ever
Taking such a risk
Like this
With one fist
Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop
Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop
Throw your fist up in the air don't make it stop
Spread love for the music we call Hip Hop
Spread love for the music we call Hip Hop
Spread love for the music we call Hip Hop
Spread love, spread love, spread love, spread love...
Spread love for the music we call Hip Hop
