

Nomy, I am God

Dont blame me baby when you cant see
who I am what can do you understand
you just cant stand up this party's gonna pop
Criticize me if you think you can
I dont give a damn if you're not my fan
Laughter fills the air
speek now if you dare
Hey you
Calm down
If you dont feel allright
I can take the fight
I know you love me but you dont
your eyes are burning of something you cant have
I know you love me but you dont
Your soul is screaming of something I wont give
