

Nomy, I Died By You

I gave my self some time today
Sat down and critized my way
The pain was born when i could see
that love is not inside of me
Dont tell me Im the only one
Im dead of what this life have done
refr:

Cant handle the pain
this life is so hollow
And I cant make the rain

and I cant stand this life
when you are my poison
Im cut by a knife
of your devotion

Of your devotion of your devotion
Im dead by you
I died by you

and this world is lost in fire
and the flames are reaching higher
