

# Nomy, Little by little

Jimmy went out with the boat one day  
he was all alone cause liked it that way  
the city was asleep as he saw the sun awake  
tell me why you're all alone  
jimmy tell me what you done  
tell me why you're all alone  
jimmy whats going on

Do you stand by my side when the sky falls down  
Can we trust you to stay around  
and the people that you betrayed  
little by little

Do you care like you say you do  
should we all turn our backs on you  
Can you think just for once for me  
little by little

Jimmy went out with the boat one day  
the girl just broked up with nothing to say  
he was all alone cause his friends had gone away  
Tell me why they should come back  
You painted their faces black  
Tell me why we should forgive  
you choosen the way to live  
we will stand by your side when the sky falls down  
but we trust you to stay around  
we're the people that you betrayed  
little by little  
and we'll care like way we should  
we will not turn our backs on you  
Can you think just for once for me  
little by little
