

Norbert Legieć, Holiday

I just wanna feel you, feel you close tonight
Trace your silhouette and fight the morning light
So give me your tears
Heartbreak and fears
Throw them away
Let's make tonight a holiday yea yea yea
I just wanna celebrate yea yea yea

Come on, come on baby, no I can't forget
The way I feel, tangled in your silhouette
So give me your tears
Heartbreak and fears
Throw them away
Let's make tonight a holiday yea yea yea
Like you do it everyday yea yea yea

Come now, celebrate
Like we're on a holiday
Everyday
You and me you and me you and me girl
Come now, celebrate
Like we're on a holiday
Everyday
You and me you and me you and me girl

You and me you and me you and me girl
Celebrate
You and me you and me you and me girl
Celebrate, Cel-Cel-Celebrate
Everyday, Celebrate
You and me you and me you and me girl

Candelight is burning like a cigarette
So light me up, excite me like russian roulette
Give me your best
I'll do the rest
Until we wake
You'll be singing like a serenade yea yea yea

Come on, come on baby, you can lose control
Take your inhibitions and just let them go
Give me your best
I'll do the rest
Until we wake
Lets make tonight a holiday yea yea yea
Like we do it everyday yea yea yea

Come now, celebrate
Like we're on a holiday
Everyday
You and me you and me you and me girl
Come now, celebrate
Like we're on a holiday
Everyday
You and me you and me you and me girl
